Gen- Retail

COMPLAINT:

01 NEW FUEL INJECTORS - MICRO FILTER IN THE BOTTOM OF THE TANK

CORRECTION:

PD 07/23/2025 Capital One

Tractor was severely derated D-P-F Recovery twice and service re-gen did not help ,brought tractor in removed both filters for cleaning they came back good ,replaced injectors and adjust valves ,put every thing back together ran on dyno to check power ,had good power but if you ran it over 3 minutes would get high e-g-r temperature tried changing sensor ,cleaning flow valve ,finally decided to remove E-G-R cooler discovered it was plugged solid from bad injectors so got it back from donavon ,cleaned it 3 times put back on engine ran on dyno lost a 100 degrees ,at rated horse power ,which is about 102 put hood back on and side panels tractor ran good again i think its had this issue quite a while ,also hot fuel last years issue was injectors were returning to much fuel symptom of bad injectors runs much smoother now hours are 5167
