COMPLAINT:

Unit seemed to lock up at customers
Believe it could be a water pump?

CAUSE:

customer complained unit seemed to have locked up and not start back up

Performed cylinder misfire and cut out test.
Drained coolant and removed pump to check bearings, found nothing
installed coolant back in, pressure tested cooling system
system had slight leak down.
drained oil out of oil pan,
removed oil pan and checked for coolant leaking
found coolant leaking between sleeves
decided to take engine out
